

DON'T G A M B L E ON SINGLE-PAYER

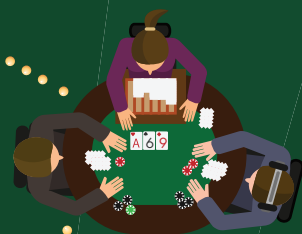

Voting NO on SB 562
is the only safe bet.

Welcome to the **SB 562 Casino**. But know that the **RULES ARE DIFFERENT HERE**

No Limit TAXes Hold 'em

SB 562 would **raise taxes at least \$150 billion**. An estimated **\$9,200 tax burden** that would be placed on every man, woman and child over what they currently pay. SB 562 permits Healthy California **officials to impose unlimited tax increases**.

Playing Roulette with Health Benefits

SB 562 would **wipe out people's existing, well-defined health benefits** -- and replace them with a **vague promise to cover unnamed services and products**.

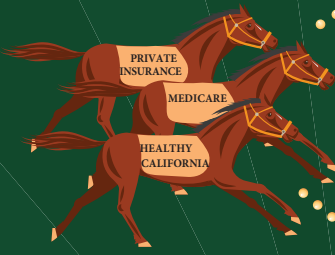

The House Always Wins

No accountability. Paid for by your hard earned tax dollars, Healthy California is specifically designed to operate outside state government and **run by political appointees who are not accountable to you**, the citizens of this state, the Governor or the Legislature. **And they can't be recalled**.

Multi-Payer Horse Race

SB 562 would absorb MediCal and Medicare and supplemental private insurance plans. SB 562 **adds another layer of unhealthy bureaucracy**.

Rush to the Exits

Healthy California's reimbursement rates would **drive top specialists out of the state**. By creating the highest taxes in the country, SB 562 would **force businesses to leave**, too.
